SUMMARY

This installation is located in the northern section of Volgograd, approximately 10 kilometers (km) west-southwest of the Volga River Dam (Figure 1).

The 40-acre installation contains a barracks/administration area with 20 buildings, a general storage area with 15 buildings, and a motor park with 5 buildings (Figures 2 and 3).

□ TALENT and □ KEYHOLE missions,

from □ covered the area. A comparison of the photography reveals no significant changes; the level of activity appears constant. On the □ TALENT mission, 150-160 vehicles were observed. Later photography revealed only a few rows of probable vehicles; however, the quality of the photography precluded an accurate count.
